Splash-proof torch with adjustable head for optimum illumination of the working area

This splash-proof torch is suitable for many different activities, such as camping or the workshop. The head swivels by 90° for optimum illumination of the working area. This device has four different light levels - high, boost, medium and low. Two magnets allow it to be attached to metal surfaces. The pocket clip makes it easy to carry around.

- 4 different light levels to suit requirements (high, boost, medium and low)
- Attach to metal surfaces with magnets
- Pocket clip makes it easy to carry around
- Integral lithium-ion rechargeable battery
- Splashproof
