

## MasterCross-Laser 2

Cross-line laser with 2 clearly visible laser lines

The cross line-laser produces two clearly visible laser lines which can be individually switched. The tool is suitable for aligning horizontals, verticals and slopes. The magnetic clamp and wall bracket allows it to be used in many different scenarios. The integrated hand-held receiver mode and optional laser receiver are ideal for outdoor applications.

- Exact horizontal and vertical alignment of objects
- Easy alignment of slopes
- Two highly visible, individually adjustable laser lines
- Magnetic clamp and wall bracket provides versatile attachment without damaging surfaces
- Integrated hand-held receiver mode for outdoor applications
- Optional receiver for detecting laser lines at a distance of up to 40 metres
- With 1/4" thread
- With 5/8" thread
