

SuperPlane-Laser 3D Pro Set 1

Three-dimensional laser with one horizontal and two vertical 360° laser circles and tripod FixPod 155 cm

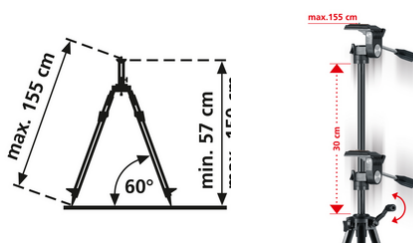

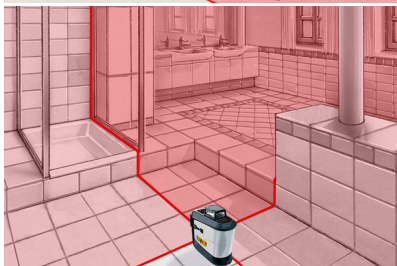

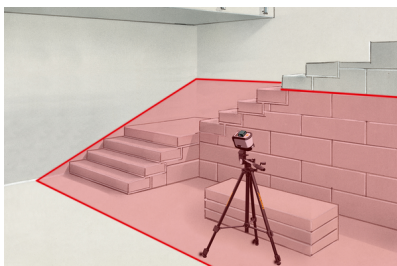

This laser projects three highly visible laser circles and is perfect for precise alignment of horizontal and vertical surfaces and slopes. The magnetic clamping and wall bracket provides easy attachment to drywall construction profiles. Optical signals warn the user when the device is outside its self-levelling range. Other benefits include an option for mains operation, long operating cycle due to the powerful lithium-ion battery, and a pendulum restraint for protection during transportation. The integrated hand receiver mode allows laser lines to be detected with the optional receiver in a radius of up to a 40 m. The tripod enables the laser to be set up safely. The measuring device can be inclined, rotated or tilted to suit the application using the three-way tripod head. Precise height adjustment by crank lift. The combined rubber/steel tips ensure optimum adjustment to the supporting surface.

- Precise horizontal and vertical alignment throughout the room
- Additional slope function for aligning inclines
- Device issues warning when leaving the levelling range
- Practical plumb function thanks to laser crosses
- 3-way tripod head for inclining, lowering and rotating the measuring tool

TECHNICAL DATA

Self-Levelling Range	$\pm 2.5^\circ$
Accuracy	$\pm 0.2 \text{ mm/m}$
Levelling	automatic
Visibility (Typical)*	15 m
Operating Range	(depending on room illumination) 15 m
Laser Wavelength	650 nm
Laser Class	2 / < 1 mW
Power Supply	Li-ion battery pack 7.4V / 2.6Ah / 19.24Wh Power adapter 12V / DC / 2A
Operating Time	with 3 laser levels: approx. 9 hours with 2 laser levels: approx. 13 hours with 1 laser level: approx. 26 hours

SCOPE OF DELIVERY

Item No. 036.600-1

GTIN (EAN) 4021563723263
