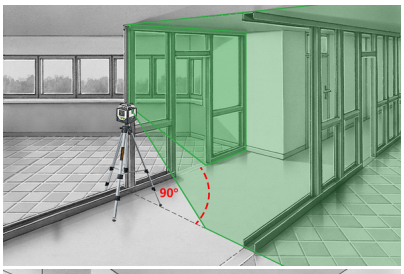
Duraplane Plus G360 Set 175 cm

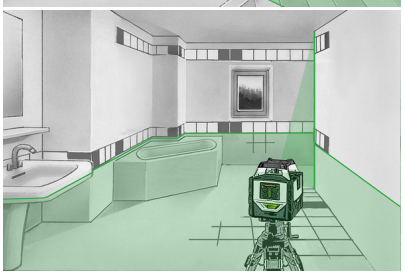
Robust 360° hybrid laser with horizontal laser circle, two vertical laser lines, Anti-Drift-System, compact tripod 175 cm and hand receiver

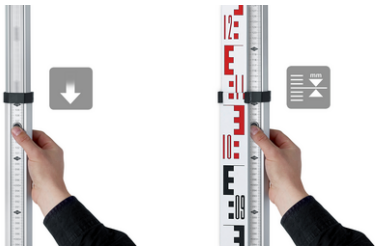
The 360° hybrid laser projects a horizontal laser circle, two individually selectable vertical laser lines and offers a manual slope function. This hybrid laser is therefore perfectly suited to precise alignment in interior and exterior areas, for example when installing formwork for concrete floors, installing shelving in warehouses or building terraces. The Anti-Drift-System provides effective protection against levelling errors, which can be caused by unintended position changes. The set is completed by two powerful HighCapacityPacks with lithium-ion technology, the compact tripod 175 cm and the high-quality RangeXtender M70 receiver with millimetre display.

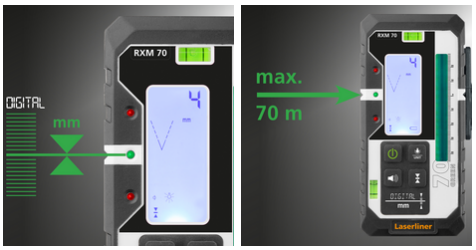
- Exact and time-saving alignment of horizontals in the whole room with 360° laser circle
- Two individually selectable laser lines for exact vertical alignment
- Precise work through fine and extremely bright green laser line
- Straightforward plumb function using upper laser cross and additional plumb laser
- Manual slope function for simple levelling of gradients
- Reliable measurement through warning of unwanted position changes
- Long operating life due to two powerful HighCapacityPack with lithium-ion technology
- Easy-to-read, coloured display for battery charge status

TECHNICAL DATA	
Self-Levelling Range	± 2.5°
Accuracy	±0.2 mm/m
Levelling	horizontal / vertical automatic
Laser Wavelength	515 nm
Laser Class	2 / < 1 mW
Laser Modes	Hand receiver mode
Laser Reception Range	max. 70 m
Protection Class	IP 54, dust and splash proofing
Power Supply	Li-ion battery pack 7.4V / 2.6Ah / 19.24Wh
Operating Time	approx. 9 hours
Battery Recharging Time	approx. 4 hours









Laser 515 nm · 2 · 6x · HIGH VISIBILITY · PowerGreen LASER · 360° LASER · AUTOMATIC LEVEL · ADS Tilt · GRX READY · 5/8" · IP 54 · Li-ion Battery · RECHARGE · 4x AAA · HARD

SCOPE OF DELIVERY
