

MetricStar

Digital calliper gauge made from glass fibre reinforced plastic

This digital calliper gauge is perfect for identifying lengths in a measuring range from 0 to 150 millimetres. The device is suitable for external, internal, depth, differential and step measurements. The Hold function allows the current measured value to be fixed in the display. The device shuts down automatically if not used for approximately five minutes to save energy.

- Digital calliper gauge
- External, internal, depth differential and level measurement
- Hold function for locking the current measured value on the display
- Unit of measurement: mm

**FIBRE GLASS
REINFORCED
NON-MAGNETIC**

LR44

TECHNICAL DATA

Power Supply	1 x 1.5V LR44 (AG13)
Operating Conditions	0°C ... 40°C, max. humidity 80% rH, no condensation, max. working altitude 4000 m above sea level
Dimensions (W x H x D)	240 mm x 80 mm x 16 mm
Weight	50 g (incl. battery)

SCOPE OF DELIVERY

Item No. 075.505A

GTIN (EAN) 4021563709977
