

## DistanceMaster Compact 30

Compact, user-friendly laser rangefinder - recycled material used for sustainability

This compact and user-friendly laser rangefinder has a measuring range of 30 metres, ideal for time-saving measurement of lengths, areas and volumes. The permanent measuring function simplifies work in situations in which continuous distance measurements are needed, for example because the target moves during measurement. The device also has two selectable housing reference points (at the front and back). The measured value memory with a maximum of 50 entries is available to document the project. The housing is largely made of recycled plastic and makes a valuable contribution to sustainability.

- Sustainable design: large proportion of the housing is made from recycled plastic
- Point-precise laser measurement for determining lengths, areas and volumes
- Continuous measurement with min/max display
- Measuring points: front and rear
- Extremely easy to use due to compact design
- Effective saving of measured values through memory function with 50 memory locations
- Energy-saving Auto Off function when not in use

### TECHNICAL DATA

<b>Precision (Typical)*</b>	± 2 mm
<b>Measurement Range (Inside)**</b>	0.1 m - 30 m
<b>Laser Wavelength</b>	635 nm
<b>Laser Class</b>	2 / < 1 mW (EN 60825-1:2014/ A11:2021 / EN 50689:2021)
<b>Memory</b>	50 storage locations
<b>Units</b>	m
<b>Power Supply</b>	2 x 1.5V LR03 (AAA)
<b>Operating Conditions</b>	-10°C ... 40°C, max. humidity 80% rH, no condensation, max. working altitude 2000 m above sea level
<b>Dimensions (W x H x D)</b>	40 mm x 121 mm x 28 mm
<b>Weight</b>	100 g (incl. batteries)
	** at max. 5,000 lux

### SCOPE OF DELIVERY

Item No. 080.940E      GTIN (EAN) 4021563735013      SU 5
