

EasyCross-Laser Green Set

Automatic cross-line laser with green laser technology, that can be seen easily and a practical, multifunctional bracket - recycled material is used for sustainability

The automatic cross-line laser generates a light green laser cross that is easy to see and is perfectly suited to precise horizontal and vertical alignment work. The multi-functional bracket enables the optimum attachment of the laser to tripods with 1/4" and 5/8" threads, walls and metal constructions. Optical signals warn the user when the unit is outside its self-levelling range. The housing of the laser is made from a large proportion of recycled plastic and makes a valuable contribution to sustainability. A pendulum lock ensures safe transportation.

- Sustainable design: large proportion of the housing is made from recycled plastic
- Accurate horizontal and vertical alignment of objects
- Good visibility through green laser technology
- Time-saving automatic alignment
- Easy alignment of slopes
- Device issues warning when leaving the levelling range
- Multifunctional mount for attaching to tripods with 1/4" or 5/8" thread and to walls or metal structures
- Pendulum restraint for safe transport

TECHNICAL DATA

Self-Levelling Range	± 3°
Accuracy	± 0.5 mm / m
Levelling	automatic
Visibility (Typical)*	40 m
Laser Wavelength	515 nm
Laser Class	2 / < 1 mW (EN 60825-1:2014/ A11:2021 / EN 50689:2021)
Power Supply	3 x 1.5V LR03 (AAA)
Operating Time	approx. 5 hours
Operating Conditions	0°C ... 50°C, max. humidity 80% rH, no condensation, max. working altitude 4000 m above sea level
Storage Conditions	-10°C ... 70°C, max. humidity 80% rH
Dimensions (W x H x D)	62 mm x 72 mm x 61 mm
Weight	202 g (incl. batteries / without accessories)

SCOPE OF DELIVERY
