

EasyCross-Laser Work Set

Automatic cross-line laser with compact tripod

This automatic cross-line laser with compact stand is suitable for precise levelling of horizontal, vertical and inclined surfaces. Ideally suited for aligning tiles, wallpaper, pictures and particularly for applications close to floor level such as fitting sockets. The measuring device produces a highly visible, bright, green laser cross. Optical signals warn the user when the unit is outside its self-levelling range. A pendulum lock ensures safe transportation.

- Exact horizontal and vertical alignment of objects
- Easy alignment of slopes
- Bright laser cross with green laser technology
- Time-saving automatic alignment
- Light and robust compact 45 cm tripod, ideal for ground level applications
- Device issues warning when leaving the levelling range
- Pendulum restraint for safe transport
