

SmartLine-Laser G360

360° line laser with horizontal laser circle, vertical line and height-adjustable, magnetic wall bracket – use of recycled material for sustainability

This 360° line laser generates a horizontal laser circle and a vertical laser line at a right angle, for the precise alignment of objects throughout the room. The device is suitable for use outdoors and over long ranges thanks to the optimum visibility of the green laser lines and the integrated hand-held receiver. The WallHolder Plus, a height-adjustable magnetic bracket, is ideal for easily attaching to walls and metal items.

- Sustainable design: large proportion of the housing is made from recycled plastic
- Exact alignment through horizontal laser circle and vertical laser line
- Good visibility through green laser technology
- Ideal for work close to the ceiling
- Easy alignment of slopes
- Time-saving automatic alignment
- Individually switchable laser lines
- Integrated handheld receiver mode for outdoor applications and long ranges
- Diverse range of mounting options on tripods, walls and metal surfaces
- Pendulum restraint for safe transport

TECHNICAL DATA

Self-levelling Range	± 4°
Accuracy	±0.3 mm/m
Levelling	automatic
Visibility (Typical)*	30 m
Working Range with Hand Receiver	(depends on how the technology affects the difference in brightness) 30 m
Laser Wavelength	515 nm
Laser Class	2 / < 1 mW
Power Supply	4 x 1.5V LR6 (AA)
Operating Time	approx. 9 hours
Operating Conditions	0°C ... 40°C, max. humidity 80% rH, no condensation, max. working altitude 4000 m above sea level

SCOPE OF DELIVERY
