DigiLevel Pro 80

Digital electronic spirit level

The digital electronic spirit level is ideal for the precise alignment of inclinations, has a Digital Connection interface for use with the MeasureNote app and is splash water-proof (IP 54). Operation is very easy thanks to the acoustic guidance function and defined standard gradients for typical applications.

- Exact alignment of slopes
- Comfortable overhead measurements thanks to flip display
- Free hands when working on metal constructions thanks to magnetic holder
- Standard gradients for roof pitch, slopes, drain pipes
- Calibration: permanent accuracy via reverse measurement
- Acoustic guidance with 3 different signal tones
- Measurement units can be switched
- Digital Connection interface for use with MeasureNote app
- Illuminated display with direction indicator
- Extremely rigid aluminium profile with milled measuring surfaces
- Splashproof
- Integrated dot laser for optical extension
