

ClimaHome-Check

Digital hygrometer for checking room climate - recycled material is used for sustainability

This digital hygrometer provides precise information on the ambient temperature and relative humidity. The device is ideal for long-term room climate monitoring to prevent moisture damage. Option to display minimum/maximum measured values. The convenient stand with magnetic clamps allows the device to be set up on a table or to be attached to metal surfaces. The housing is made from a large proportion of recycled plastic and makes a valuable contribution to sustainability.

- Sustainable design: large proportion of the housing is made from recycled plastic
- Measurement of relative humidity and ambient temperature
- Effective long-term measurement of the room climate to prevent moisture damage
- Min/Max display
- Fold-out stand/clip

TECHNICAL DATA

| | |
|--|---|
| Measured Variable | Humidity Ambient temperature |
| Measuring Range Ambient Temperature | 0°C ... 50°C |
| Accuracy Ambient Temperature | ± 1°C (0°C ... 50°C) ± 2°C (<0°C and >50°C) |
| Measuring Range Humidity (Relative) | 20% ... 95% |
| Accuracy (Absolute) Humidity (Relative) | ± 3% (30% ... 70%) ± 5% (20% ... 30%, 70% ... 95%) |
