

FixView Camera

Camera unit for VideoFlex with fixed microcamera

This camera unit is suitable for VideoFlex G3 and G4. It has a fixed, very thin micro camera and is ideal for inspecting extremely small openings, for example in machines, motor vehicles and masonry. Thanks to a high-intensity object illumination with four high-performance LEDs, meaningful images can be taken even in poor conditions. Due to the forty centimetre long, waterproof stainless steel guide, the application possibilities are manifold.

- 4 mm thin microcamera for inspecting extremely small openings
- 40 cm long stainless steel guide
- Good object lighting due to 4 high-performance LEDs
- Compatible with G3/G4

TECHNICAL DATA

Diameter Camera Head	4 mm
Camera Resolution	320 x 240 pixels
Field of View (FOV)	63°
Depth of Focus (DOF)	3 ... 7 cm
Length of Probe	400 mm
Operating Conditions	0°C ... 60°C, max. humidity 85% rH, no condensation, max. working altitude 2000 m above sea level
Storage Conditions	-20°C ... 80°C, max. humidity 85% rH, no condensation
Dimensions (W x H x D)	18 mm x 459 mm x 18 mm
Weight	24 g #
