Laserliner

DuoView Camera

Camera unit for VideoFlex G3 and G4 with additional side camera and lighting

TECHNICAL DATA

This camera unit can be used together with VideoFlex G3 as well as G4 and is suitable for inspecting hard-to-reach places, for example wall cavities, shafts, brickwork or in motor vehicles. It has a front and a side camera for quickly changing the view at the touch of a button. High-brightness object illumination with four high-performance LEDs on the front camera and two LEDs on the side camera ensure meaningful images even in poor conditions. The camera head and cable are waterproof.

- Front and side camera for quick change of view at the touch of a button
- 4 high-performance, high-intensity LEDs on the front camera for powerful object lighting and 2 LEDs on the side camera
- For inspecting highly inaccessible locations such as cavities, shafts, masonry or in vehicles
- Waterproof camera head and cable
- · Compatible with G3/G4
