

VideoInspector Mini

Professional video inspection system for simple visual inspection of areas that are difficult to access - compact camera head ideal for tight spaces

The professional video inspection is ideal for precise problem localisation behind or in objects, wall, pipes and cavities. The camera head and probe are waterproof and resistant to petrol and diesel, with the compact camera head especially suited to tight spaces. Further benefits include the top quality LED object lighting and the magnetic stand for setting up the base unit. The true colour reproduction provides an extremely realistic image. In addition to the InspectorCamera Mini included in the scope of delivery, the base unit is also compatible with the other high-quality camera units InspectorCamera 3DX, 3DL and 3DM. A broad spectrum of possible fields is therefore available.

- Effective problem localisation behind or in objects, walls, pipes, cavities
- Compact camera head ideal for inspecting small openings
- The camera head and probe are waterproof and resistant to petrol and diesel
- 8 high-performance LEDs on the camera for powerful object lighting
- User has both hands free to work thanks to the magnetic stands on the camera unit
- Flexible application options: Compatible with high-quality camera units InspectorCamera 3DX, 3DL and 3DM
- Device fits well in the hand due to ergonomic design

TECHNICAL DATA
