

VideoFlex G4 Master Set

Professional video inspection system with XXLCamera and FixView Camera - packed in the sturdy and practical L-BOXX 136

This professional video inspection system comprises two changeable camera units and offers very flexible applications. The XXLCamera with a long flexible hose is ideal for use at a great distance. The FixView Camera is a pivotable microcamera that is ideally suited to the smallest openings due to its compact design. Both cameras are fitted with four high-performance LEDs, as a result of which informative shots are achieved even under poor conditions. Thanks to the true to nature reproduction of colours, a realistic representation is possible. The video inspection system always arrives safely at the place of deployment in the L-BOXX 136. This case system valued by professional craftsmen is characterised by its great sturdiness and practical clicking of the BOXXes.

- Effective problem localisation behind or in objects, walls, pipes, cavities
- True colours for highly realistic image
- Device fits well in the hand due to ergonomic design
- Suitable image available on the monitor through rotation and mirroring
- 4 high-performance LEDs for powerful object lighting at the camera
- Range of installation options due to exchangeable camera unit
