

ThermoSensor Clamp

K-type temperature sensor

This K-type temperature sensor with heat-resistant handle allows accurate measurements to be taken on metallic pipes from 6 to 35 millimetres. The strong clamping magnets ensure a secure grip and the long measuring cable allows the device to be used in complex installations. The device is suitable for use with the ThermoMaster, Thermospot XP, CondenseSpot XP, MultiMeter XP and ClampMeter XP products.

- K-type temperature sensor
- For pipes with diameters from 6 to 35 mm
- High clamping force for a secure grip
- Heat resistant handle
- 1.5 m long cable

TECHNICAL DATA

Measured Variable	Contact temperature
Measuring Range Thermocouple	-40°C ... 100°C
Features	for 6 mm ... 35 mm pipe diameter 1.5 m cable length
Ports	Thermocouple type K
Dimensions (W x H x D)	130 mm x 79 mm x 39 mm
Weight	100 g #

SCOPE OF DELIVERY
